Summary

Fullstack developer (JavaScript, TypeScript, Python, React, Node.js) who ships working products. I led a student team from prototype to MVP of an FPV racing platform and, with a team of six, built GrantHUB UA at a national hackathon. I take ownership across architecture, code review, QA and DevOps, and learn new tools fast. Looking for a junior fullstack role.

Experience

Team Lead & Fullstack Developer

Feb 2026 – Jun 2026

SkyLink — university startup, FPV racing platform

- Led a team of 4 (designer, QA, SMM and myself) building a web platform for FPV drone racing: tournaments, rankings, news and simulator integration.
- Owned architecture and task delegation; built the fullstack with JavaScript, React, Express and Node.js.
- Ran sprints and code reviews and took the product from prototype to MVP. The platform has 84 pilots. skylinkfpv.pp.ua

Head of the Student Council

Present

INTITA, Vinnytsia National Technological University

- Lead a team of 19 students; coordinate student initiatives and organize campus events.
- Volunteered at the Innovation Day technology conferences in 2025 and 2026.

Drone Engineering Instructor & Mentor

Jul 2026 – Oct 2026

INTITA Summer STEM Camp and INTITA Lyceum

- Summer STEM Camp (Jul 2026): led the Drone Engineering track for two 2-week sessions, combining hands-on instruction with full-time mentorship of the group.
- INTITA Lyceum: after the camp, taught the same Drone Engineering course to 4 classes (grades 8–11), about 10 students per class.

Projects & hackathons

GrantHUB UA

Jun 2026

IV Ukrainian Hackathon of Intellectual Capital Development

- Team Lead, Fullstack Developer, QA and DevOps in a team of six.
- Built on NestJS and Next.js: a platform with an automated parser that collects startup funding opportunities into a single database.

III Ukrainian Hackathon of Intellectual Capital Development

Dec 2025

Diploma

- Earned a diploma and received personal mentorship from Mykhailo Hanchuk, founder of Promavtomatika.
